PEKING TORN WITH FEARS CONCERNING WAR LORDS

What Are Plans Of Chang And Wu? Big Query

PARLEYS NOW ON

Generals In Position To Fight Or Negotiate

(Reuter's Pacific Service)

Peking, March 27.—Peking is again seething with rumors of an impending conflict between General Wu Pei-fu and General Chang Tso-lin of which no official confirmation can be obtained in Peking. The only certainty appears to be that the decisions reached at Mukden are now being worked out, but whether these include actual hostilities is still uncertain.

The suspicious movements of troops from Mukden to Chili and Shantung give color to the alarmist rumors but it has been pointed out that the strategic positions which General Chang and General Wu are now endeavoring to obtain are equally valuable for hostilities and for the final negotiations which are now taking place. A prominent official, interviewed by Reuter's correspondent today stated that he did not believe that anyone in Peking knew what to expect but he hoped that a few days would throw light on the situation.

This represents generally the outlook of the Legations and of the Chinese authorities, whereas the Chinese people as usual are scurrying hurriedly to shelter from the expected storm.

Japanese Officials Have Plans To Aid Steel Factories

(Reuter's Pacific Service)

Tokio, March 2.—With regard to the relief of the iron and steel manufacturers, the Industrial Investigation Council has mapped out three plans of relief. The first is the amalgamation of the iron and steel industries; the second tariff protection; and the third the granting of subsidies.

The first plan is thought to be difficult of realisation owing to the conflicting interests among manufacturers, and the Industrial Council is now carrying on investigations in regard to the two remaining measures. The matter, it is believed, will be discussed at a special session of the Diet, in the summer.

The students have applied to the school authorities for the postponement of their graduation exercises pending the solution of the question.

Mark Collapse Causes Little Stir

(Reuter's Service)

London, March 25.—The collapse of the German mark which touched 1,530 yesterday, recovering later to 1,435, has not caused an international sensation like in last November when the slump led to the decision to settle the reparations trouble. Both the German and foreign publics have apparently decided that nothing useful can be done.

The Reichsbank has again raised the price of gold from 850 to 950 paper marks for a 20-mark gold piece.

COMMISSION NAMED

Washington, March 25.—Secretaries Mellon, Hughes and Hoover and two others will be the members of the commission to direct the Allied debts refunding operations.

New Machine Makes Type Audible, So Blind Can Read

Remarkable Invention Of Englishman Will Revolutionise Educational And Entertainment Methods For Sightless, Belief

(Reuter's Service)

New York, Feb. 19.—Rays of light converted into harmonious musical sounds today were demonstrated to be a medium by which totally blind persons may read newspapers, magazines and books.

Describing the test, which took place in Jersey City, the New York World declared that Miss Margaret Hogan, a blind girl, read the front page of a New York newspaper by means of an "optophone," the invention of Prof. E. S. Fournier d'Albe, former instructor of physics at the University of Birmingham, England.

Ten years have elapsed since Prof. d'Albe first brought his optophonetic idea before the London Optical Convention. It was announced today that Miss Hogan had proved the practicability of his machine.

The optophone projects light by means of a tiny photographic lens through five rows of oblong perforations in a revolving disc and reflects it back to be transformed into sound by selenium cells. These rays of light, to the non-technical observer, appear as the five parallel bars of a musical staff, producing, as they pass over each letter, five notes of the musical scale, sol, do, re, mi, and sol again on a higher key.

So delicate is the registration made that even the smallest of type can be read.

Explaining her impressions of the optophone, Miss Hogan said that when she first listened to the sounds she thought them beautiful but could not interpret them and became discouraged. Finally, she said, she realised that she was distinguishing the sound characterising the letter "A" every time she heard it.

"Then," she continued, "I began to distinguish other sounds and soon tried to read a paragraph. I wrote on my Braille typewriter as I listened and learned when some-one compared with me that I had made several mistakes, but had recorded the full sense of the sentences.

"Soon I could take 15 words a minute.

"I believe that anyone could be taught to use the optophone. It is a Godsend for the sightless."

BOTTLE MESSAGE HINTS GERMANS SANK CYCLOPS

All Hands Ordered Aboard U-Boat, Says Message

(China Press Service)

Beaufort, N. C., March 25.—The fate of the Collier Cyclops which disappeared during the war is assumed to have been cleared up by the finding of a message in a bottle Cape Lookout. The message purports to be from one of the engineers of the Cyclops and says that a German submarine is standing by ready to send the Cyclops to the bottom of the sea.

All hands had been ordered aboard the submarine, the message continues. The paper shows grease stains and is considered to be authentic. The further fate of the crew, whether they went down to death when retribution possibly overtook the submarine or whether they were slaughtered out of hand by the Germans is a matter for speculation. They have never been heard of till now.

Albany on Sunday following visits to the Philippines and South China points, will be the guest tonight of the American Chamber of Commerce and the American Association at a dinner to be given at the Astor House. Indications are that there will be a large attendance from the American community at the dinner, the guests at which will include members of the Wuhu Chamber of Commerce who are in town today being entertained by the local American commercial organisation.

While Dr. Schurman is being honored at the dinner at the Astor House Mrs. Schurman and Miss Schurman will be the guests of the American Woman's Club at a dinner to be given at the Union Club.

GENERAL CHEN REJECTS MUKDEN'S PLAN OF ALLIANCE

Southern Leader Turns Down Scheme Presented By Dr. C. C. Wu

Denouncing the proposed alliance with Mukden as unnatural and detrimental to democratic principles, General Chen Chiung-ming has openly expressed disapproval of the plan proposed by Dr. C. C. Wu, who had just returned to Canton from Mukden after undertaking a special mission intended to bring about some understanding with the Fengtien warlord, Chang Tso-lin. Word of Chen's disapproval is carried in a private telegram received here yesterday.

The disapproval was expressed at the meeting of the Southern Cabinet on Saturday when Dr. Wu presented formally the proposal of an Anfu-Fengtien-Kuomingtang alliance. General Chen was of opinion that the Southern cause would be lost and the Kuomingtang would be lured into a monarchical intrigue if the plan was accepted.

Chen maintained that nothing should affect the Kuomingtang's original platform, namely, self-government in all provinces, abolition of the Tuchunate, disarmament and the restoration of Parliament.

He held that the unnatural alliance would breed unending trouble and that the scheme of Fengtien is pregnant with dangerous possibilities.

JUDGE LOBINGIER WILL BE CLEARED, SAYS FESSENDEN

Attorney Declares Charges Made By Fleming Will Not Hold

"I fully expect Judge Lobingier to be cleared of the charges made against him, the only fear being that politics will enter into the case," declared Mr. Sterling Fessenden, American attorney, who has just returned from Washington where he watched the proceedings while the case was under investigation by the Department of Justice.

"The charges were investigated during the months of September and October. Mr. Fleming presented his own case and Judge Lobingier watched the proceedings and gave evidence himself. I watched the entire proceedings and in my opinion Mr. Fleming did not make out a case against Judge Lobingier. In a new administration, there are always some men who can be swayed by political pressure, and that may happen in this case, but if politics do not enter, and official announcement was made that they would not, Judge Lobingier will be cleared."

The matter was heard by an assistant United States attorney, and the proceedings reviewed by another assistant. The entire matter is now before the Attorney-General, and the final ruling may come from him or from the Secretary of State.

In the case in which Mr. Fleming appealed to the Ninth Circuit Court of Appeals at San Francisco against his sentence of six months in jail for contempt of court, arguments were heard February 23, Mr. Fessenden said, but as far as he knew, no decision has as yet been rendered.

1,564,000 Bags Of Sugar In Tokio

(Reuter's Pacific Service)

Tokio, March 21.—There is an accumulation of one million five hundred and sixty four thousand (1,564,000) bags of sugar on the local market and prices are very much depressed. Some of the experts, however, declare that this fact should not be regarded in a too serious light as the first four months of the year are the season of production and sugar is bound to accumulate to a quantity where prices are temporarily affected.

Foreign reports tend to confirm this opinion as the situation in Java and Cuba is reported to have improved. Dealers here have agreed to cut their daily output by one third and are hopeful that the plan will brighten the tone of the market at the beginning of next month.

TRIBUTE PAID TO SIR EVERARD AT MEMORIAL RITES

Impressive and solemn rites marked the memorial services for the late Sir Everard Fraser, British Consul-General, whose sudden death last week came as a great shock to the entire community. The speaker was Bishop Molony of Ningpo, who paid a stirring tribute to the deceased.

"Sir Everard Fraser was a noble man and a great consul," he said. "He has gone now, in a moment to the great tribunal of God, and I doubt not he will hear the words which we all hope to hear some day: 'Well done, good and faithful servant.'

"Sir Everard was straight and tall as the pine trees of his native land, his will and purpose mere as strong as the granite of the Grampians, his companionship was as fragrant as the heather on the moors of Scotland. He was a worthy son of a great land."

A crowd of sorrowing friends of the deceased which filled the cathedral attended the services.

PROPOSED BYE-LAW RESTRICTS PRESS, SAY PUBLISHERS

Chinese Associations Announce Opposition To Measure

Determined opposition to the proposed bye-law of the Shanghai Municipal Council which would make it an offense for anyone to print or publish a newspaper, pamphlet or any other paper without first registering either with the consulate of the nationality to which the publisher belongs, or in the case of Chinese, with the Municipal Council, is expressed in a campaign which has been undertaken by the Chinese Publishers' Guild, the Chinese Publishers' Association, the Association of Chinese Newspapers of Shanghai, and the Shanghai Publishers' Union.

The associations declare that they are advised that the proposed bye-law is ultra vires of the "power, authority and control," vested in the Municipal Council as defined in the Shanghai Land Regulations.

"The fundamental right of freedom of speech, which is guarnteed to the Chinese by the Provisional Constitution, is not covered by the regulations, and it is this right that the proposed bye-law is seeking to limit," says an announcement prepared by the various publishers' associations.

"We are also advised that the proposed measure is, as a whole without parallel in modern times: The present law of England permits any one to say, write and publish what he pleases, subject to the general law of defamation and to two statutory provisions, one requiring every paper or book intended to be published or dispersed to bear on it the name and address of the printer, and the other establishing a register of newspaper proprietors at Somerset House, London. The proposed bye-law goes far beyond these two specific restrictions imposed by British statutory law."

WOOD MAKES WHOLESALE SLASHES WITH VETO KNIFE

Rejects Sixteen Of Eighty Three Bills

UNPRECEDENTED

University Hardest Hit — Revenue Failure, Cause

(Reuter's Pacific Service)

Manila, March 17.—Of the eighty-three bills passed by the Philippine Legislature during its last session, sixteen have been voted by Governor-General Wood. The remainder have been signed by him and take their place on the statute books.

This is the first time in many years that the veto power has been exercised so thoroughly by a Governor-General. During the administration of Mr. Francis Burton Harrison, the veto was practically a dead letter. A few bills were vetoed by him in the first years of his term, and three were vetoed by him shortly before he left the islands. Nearly all of these were unimportant measures, however.

General Wood's wholesale use of the veto was exercised because of the falling off in estimated revenue of the islands this year. Up to the middle of March, the Customs receipts were approximately a million pesos less than had been forecast in the budget. Several of the measures from which Governor Wood withheld his approval would have diminished the revenue still further.

The University of the Philippines was hardest hit by the Governor's action. The Legislature had appropriated 18,000,000 pesos to develop that institution during the next nine years. This measure was vetoed by the Governor, except that part appropriating about 800,000 pesos for the current year.

So serious was the decrease in revenues that many teachers in the public schools had gone unpaid since the first of January. A portion of the funds allotted to education this year have been released, however, and the arrears are being paid.

ARMED ROBBERS STAB BOATMAN; TWO ARRESTED

Two men charged as members of a gang of six who boarded a boat in a creek near Ichang Road Sunday, stabbed a boatman and took away $150 and 2,000 coppers, appeared in the Mixed Court yesterday and were remanded in custody for two weeks to permit the arrest of the others implicated.

One of the gang was armed with a revolver and the others carried knives, according to the testimony and the boatman was stabbed in the leg when he raised an outcry. A police constable who heard his shouts came up in time to arrest one of the robbers and through information received from him the second accused was taken into custody.

TWO ARE KILLED IN SUNDAY FIRE OFF RANGE ROAD

Two Chinese are dead and a third is injured as a result of a fire which broke out early Sunday morning destroying five houses and damaging five others in the country off Range Road.

The outbreak had its origin in an incense shop at PC 338 off Range Road and spread with great rapidity, three houses being practically destroyed by the time the firemen reached the scene at about 3:45 a.m. It was reported to the firemen that a man of 50 and an old woman, of 70, were missing and search of the debris resulted in the discovery of the bodies. A woman was injured when she leaped from the first floor of one of the buildings to escape. She will recover.

A serious blaze in the Chinese City Sunday noon caused the destruction of fifteen houses near the East Gate.

PIRATE ARMY TERRORISES VILLAGES ON SEA COAST

Three Hundred Bandits Land From Launch

KIDNAP CITIZENS

Shantung Communities Ask Peking For Aid

(Reuter's Pacific Service)

Peking, March 24.—A telegram has been received by the Waichiaopu from Chenyang, near Tsingtao, saying that a band of three hundred robbers recently landed on the coast near Tsingtau from a launch flying the Japanese flag. The band subsequently attacked several villages, in some cases with only partial success. The landing was made at Yangmoukou and from there the robbers proceeded to Haihsichen village from which they carried off for ransom eight people, men, women and children. Going on to Shachaichwang, six li from Chenyang, they carried off two men. The band then visited a small village eight li from Shachiachwang and burned eight houses there. On the night of the 10th instant one hundred men of the band reached Niukukou district and attacked two villages, Weisan and Tehpeichen. Here they met with opposition and were finally driven off by the residents. The robbers were next heard of at the village of Tsetou, where they seized one of the head men and took him away.

The telegram adds that the robbers are gaining in strength daily. The firing of rifles is heard in that region every night. Merchants and other residents of Chenyang are fleeing daily in increasing numbers. Most of the shops there have already been closed, and the conditions generally are alarming. The message concludes by pointing out that Chenyang is an important point strategically and that prompt measures should be undertaken to suppress the disorders.

GAMBLERS FINED

The Mixed Court was congested with gamblers again yesterday in consequence of a raid conducted by Sergeant Robertson of West Hongkew station at 54 North Soochow Road Saturday night when 54 men were rounded up and booked at the station. The gambling was being conducted in an inner store room of a silk filature, the conductor of the operations having made arrangements with the night watchman to rent the room at $4 a night. The man responsible for the gaming was fined $100 and the patrons were assessed $3 each, with the exception of five who failed to appear and forfeited $10 bail money each.

KIANGSI PROVINCE FIRST OBJECTIVE OF DR. SUN'S ARMY

Fengtien Party And Canton Reported In Agreement

(Chung Mei Service)

Peking, March 24.—The military intelligence reports state that Dr. Sun's Northern expedition began on March 8 and that the first object of attack is Kiangsi Province. The inhabitants of Kweilin, the base of the invading army, held a victory celebration upon the formal departure of the troops at which Dr. Sun announced his confidence in the coming campaign.

General Tsao Kun has made a formal report to the Northern Government with respect to the Southern Campaign based upon advices received from his military aides throughout the South of China.

According to his reports funds for the expedition are lacking, but that finances have been to some extent obtained by a note issue in Kwangsi to the amount of several hundreds of thousands of dollars. These notes are now in the market and are legal tender. There has been somewhat of a currency depreciation as a result.

Cheng Hsuing has been appointed to command the 1st and 2nd divisions which will make up the left wing of the Northern expedition. Generals Tung Kang and Hung Hsi-ling, commanders of the 1st and 2nd respectively, have been ordered to mobilise west of Kweilin and to recruit re-enforcements. The arsenal near Canton is running day and night to furnish munitions to the new forces. This arsenal was recently purchased from Canada and was transferred to Canton by the maneuvers of an American engineering firm. It is modern in every detail and was intended as a munitions plant for the Canadian Expeditionary forces during the late world war.

Little Hsu and Dr. Sun are reported to have agreed upon a plan for the Northern expedition. Kiangsi is to be attacked first. Li Lieh-chun will then be appointed Tuchun of this province and little Hsu has promised to contribute two million dollars to the campaign fund.

Two divisions and one brigade under General Hsung Hsi-ling have been ordered to attack along the border line between Hsing and Yeh and march further along for the attack upon Kiangsi.

Other forces will attack Hunan in order to intercept the Northern troops there. Li Lieh-chun is returning to Canton by way of Kweilin and Ping Lo and is now at Kweichow. Tsao Kun apparently believes that strong measures should be taken against the expedition.

According to today's Shun Tien Shih Pao it is reported that the Fengtien party has reached an agreement with the Southern party as a result of Dr. C. C. Wu's recent visit to Mukden whereby parliament will be reconvened and for the time being the president's office will be abolished.

Later Dr. Sun Yat-sen will be elected President and Chang Tso-lin Vice-President. Wu Chin-lien, the old speaker of Parliament is to be recalled to lead the constitutional restoration. In the meantime President Hsu Shih-chang must apparently go.

COOLIE SLAIN IN BANDIT RAID ON MONEY SHIPMENT

Quartet In Automobile Kill In Vain Attempt At Robbery

A quartet of Chinese gunmen, adopting the methods of their Western confreres in crime, leaped from an automobile on North Honan Road near Haining Road shortly after noon yesterday and shot and fatally wounded a wheelbarrow coolie in an ineffectual attempt to make off with a shipment of silver dollars which was being taken from the Shanghai-Nanking Railway North Station to Chinese banks in the downtown district. The wounded coolie died at the Shantung Road Hospital a few hours later. His slayers escaped by leaping back into their motor car and driving in the direction of Soochow Creek.

The holdup was branded by the police as one of the most daring that had ever occurred in Shanghai. The precision with which it was carried out evidenced that the gunmen were well aware that shipments of silver dollars from the Nanking mint are received daily at the station and transported by wheelbarrows to the native banks. There were five big boxes of silver dollars on the wheelbarrow. The slain coolie was in front pulling the vehicle. Another coolie was pushing it.

The bandit automobile drove up North Honan Road. As the gunmen sighted the wheelbarrow, the chauffeur slowed up and pulled over to the curb. Three of the men jumped from the car and started to pull one of the boxes of money off the wheelbarrow. The coolie in front of the wheelbarrow attempted to tussle with one of the bandits. Without a word, the man drew a pistol and fired. As the coolie fell to the pavement, one of the money boxes crashed open, but the bandits fled without taking any of the money.

Witnesses disagree on the license plate on the motor car. One Chinese who was at the corner of Boone Road and North Honan Road told the police that the number on the car was 321. Investigation disclosed that the car bearing that license number was elsewhere at the time, however, and the police believe that one of the numbers on the plate was covered or that a fake number plate was used. The chauffeur of the car was described as wearing a black hat. He was not in uniform. The automobile, witnesses said, was "a big black car."

SPECIE RESERVE

Tokio, March 21.—According to the Finance Department, the specie reserves at home and abroad in the Government possession amounted to one billion nine hundred million yen (Y.1,900,000,000) on March 15. Compared with the end of the preceding month, the above figures indicate a decrease of something like fourteen million yen (Y.14,000,000.)

Cherokee Indian Girl On Way Here As Student Delegate

(Reuter's Service)

Lawrence, Kas., March 2.—Ruth Muskrat, a Cherokee Indian girl from Oklahoma, who is a student at the University of Kansas here, will visit China this spring as a delegate to the World's Student Christian Federation Conference at Peking, April 4.

The hope of the conference, Miss Muskrat explained recently, is to get students of various parts of the world in vital touch with each other and, among other things, solve the problems confronting Chinese students who have become imbued with Occidental ideas.

Miss Muskrat, who is 17, has done Y.W.C.A. work in New Mexico and worked among her people in religious and educational work.

"The primary need of my people," Miss Muskrat declared, "is trained native leadership—Indians, themselves, who understand the peculiarities of the tribe and can work with them.

"Indian women are more capable in most respects than the men. They know better how to barter—they are shrewder. This is an outgrowth of the time when women raised the crops. The men go in more for social activities. If I have a party, I can always count on the men attending. But if I want to put on a financial drive I appeal to the women."

Fifty-seven nations will be represented at the student conference in Peking, and will represent more than 200,000 students thruoghout the world, she said. After the conference, delegates will visit the principal universities of Japan and China.

Miss Muskrat, who says her father is Cherokee and her mother Irish, will be the second Indian ever elected a delegate to an international student conference. She goes as a guest of the national board of the Young Women's Christian Association.

Other business to come before the meeting includes the election of a new committee and the passing of the report for 1921.

PINE TREE STATE CLAIM OF RECORD BRINGS DENIAL

The recent report that the Pine Tree State had established a new trans-Pacific record for the run from Yokohama to Seattle has evidently created considerable stir among shipping men along the American coast and brings a denial of the Pine Tree State's claims from the Canadian Pacific Steamships company's adherents. The following, under date of February 8 from Victoria, B. C., appeared in a recent issue of the Montreal Gazette:

"Claims of Seattle shipping men that the steamer Pine Tree State of the U. S. Shipping Board had broken the trans-Pacific record were dispelled when the actual facts became known. But there was considerable excitement along the Vancouver and Victoria waterfronts over the reported claim of the Pine Tree State to the trans-Pacific record with a run of 9 days and 11 hours from Yokohama to quarantine at William Head. She steamed up Puget Sound with a broom at her masthead, indicating that she had broken all records. Reference to facts however indicated that the trans-Pacific record is held by the Empress of Russia of the Canadian Pacific fleet, which crossed from Yokohama to William Head in eight days 18 hours and 31 minutes. This was on May 30, 1914.

"The Empress of Asia made the trans-Pacific run in 8 days, 21 hours and 4 minutes, with her arrival on June 30, 1919. What record the Pine Tree State broke cannot be ascertained, but the old salts on the waterfront feel that an injustice has been done trying to claim an honor that still belongs to the Canadian Pacific.

"Just what time the Empress of Canada will make is not known, but it is expected that the new liner will walk away from all craft on the Pacific Coast. An endeavor was made recently to have the time of the Empress of Russia changed so that she could leave at the same time as the Silver State and race across the Pacific, but the Canadian Pacific discouraged the move, stating that the safety of the passengers came first and they would not condone racing on the part of their skippers.

"But whatever disputes may arise between the Canadian Pacific liners Empress of Russia and Empress of Asia regarding speed, there are few other vessels on the Pacific qualified to take part in the controversy. But it takes time and opportunity to bring this truth home in some instances."

First Fatal Accident Is Recorded In Soochow Last Saturday

The first fatal accident in the history of the Chinese moving picture industry was recorded on Saturday when an actor named Keh, employed by the Sin Yah Cinema Co. was drowned at Pao Tah Bridge, Soochow, while engaged in staging a fight with a bandit. After a lengthy struggle with the villain of the show on the top of Lion Hill, Keh pursued his opponent and captured him on the bridge. He threw the man into the river and watched.

As the villain submerged and swam for his life, Keh plunged headlong into the stream. But just then, a launch cut across his course and he had to dodge to one side. But he apparently had exhausted his strength and sank without a struggle.

Plan Development Of West Szechuen

(Yih Chow News Agency)

Chungking, March 5.—The government is now formulating a plan to develop the vast region situated in the western part of the province. This region now is sparcely inhabited but filled with natural resources. It is the wish of the provincial government to induce a portion of the soldiers, soon to be disbanded, to settle in that district so as to utilise the resources of the place to the advantage of the people as a whole.

Since it is somewhat less strictly ruled by the provincial administration power, the district is suffering from outlaws. To get rid of this trouble, the government is taking drastic measures aiming at their speedy suppression. In view of the semi-civilised condition of the place, it has been decided to introduce modern educational systems and industrial enterprises for the betterment of the standard of living of the people. And as the place is rich in mineral wealth, a plan has been drawn up for the exploitation of the mining industries in that district. There are also other civil facilities being formulated.

Injuries received when he was thrown from his horse on Sinza Road caused the death at the General Hospital Sunday afternoon of Mr. Rudolph Becker, 24 years old, junior clerk in the offices of Messrs. Sander, Weller and Co., 64 Kiangse Road.

Just how the young man came to be thrown is not known. He was found unconscious and bleeding profusely by a Chinese policeman near Gordon Road Saturday afternoon. He was taken immediately to the hospital, where it was found that his skull had been fractured. Mr. Becker came to Shanghai only two months ago from Hamburg. He had served four years in the German army during the war.

Funeral services were held yesterday afternoon at Bubbling Well Cemetery, the Rev. Mueller officiating.

SEEKS TO RECOVER MONEY LOST IN GAMBLING HOUSE

Echoes of the police raid on an alleged gambling resort at No. 4 Jessfield Road were heard in the Spanish Consular Court yesterday morning when a Chinese named Chang Tsang-li, who claims to have lost $5,400 in gambling at the resort, sought a court order to have the money returned to him because he had "heard that the bankers in the house had used tricky methods."

Three men, Nyi Kyui-ling, Poo Sean-chun, and F. Evangelista, the latter a Spanish citizen, are accused of conducting the house as a "common gambling house" and using the premises for the purpose of public opium smoking.

Chang from the witness stand declared that he had visited the house on three occasions at the invitation of Nyi, whom he had known as a keeper of gambling houses in various sections of Shanghai. On his first visit in January of this year, he said, he had lost $400. On February 18 and 19, he had lost $2,000 and $3,000 respectively. He decided to demand the return of the money which he lost because he was told by a friend, also a habitue of the place, that Nyi had returned to a Chinese certain money which he had lost in a game there. His friend stated, Chang declared, that the money was returned because it was discovered that tricks were employed by Nyi's bankers in the game. Chang testified that although Nyi had promised to consider his demand for the return of his money, he had been unable to locate him following the police raid on the place.

The Court adjourned the case until Thursday morning. Mr. K. E. Newman, of Messrs. Teesdale, Godfrey and Newman, appeared for the plaintiff, and Mr. A. S. Allan represented the accused.

Before sentence is executed, however, it is customary in such cases for the Chinese officials to review the case. The Procurator General, according to the Chinese press, insists the matter should be reviewed in his court.

SAINT JOSEPH'S ASSOCIATION HAS SUCCESSFUL YEAR

Showing assets of $8,869 against liabilities of but $1,820 at the end of its first ten months of existence, the St. Joseph's Catholic Association, now firmly established shows such signs of flourishing as to bring great gratification to the members, who gathered Sunday morning for the annual general meeting in the organisation's assembly rooms at 12 Avenue Edward VII.

The meeting was presided over by Mr. Harold C. Norman, the president, and was attended by all the members of the executive council. The Rt. Rev. P. Paris, Bishop of Silando, was unable to be present owing to a previous engagement and was represented by the Rev. Father J. A. Croke, S. J., Spiritual Adviser to the Association.

In proposing the adoption of the report the chairman spoke of the satisfactory financial condition of the Association. Working expenses up to December 31 were $5,282, and the credit balance transferred to profit and loss amounted to $7,019.

Wayport Rooms, the Sailors' Institute and Home at No. 14, Boone Road, which were opened on August 29, 1921, evidenced an equally satisfactory state of affairs. Receipts, including large donations received from friends, amounted to $9,302, while the expenses, including the heavy cost of structural alterations, totalled $7,897, leaving a credit balance of $1,405 to be transferred to profit and loss. The assets as shown by the balance sheet amount to $3,006; the liabilities total $1,601.

The president announced that a lease of the adjacent premises was about to be granted; this would enable the work of the Institute and Home to be much extended, the present premises being quite inadequate.

The work of the other Committees having been dealt with, the president congratulated the members on their successful achievement, laying stress on the fact that the Association had been the means of bringing together scores of Catholics of both sexes who were formerly unknown to one another. He further announced that an additional room was about to be secured, in Avenue Edward VII, if possible, where the more directly spiritual work of the Association would be carried on.

$50,000 Reward For Arrest Of Teng's Slayers

Canton authorities have increased the reward offered for the men who assassinated General Teng as he was alighting from a train at the Canton railway station several days ago, from $20,000 to $50,000 according to the Chinese press.

The reward was increased after an attempt was made to set fire to General Chen Chung-ming's home in Canton, and the authorities became convinced that the work has been the purpose of a paid gang of assassinators instigated by a Northern clique.

Conflicting reports received in Shanghai say that three men, and only one man, have been arrested in Canton in connection with the murder.

THIRTY ARRESTS MADE

The Canton police have arrested more than 30 suspects in connection with the murder of General Teng Keng, aide-de-camp of the Canton Army. They were captured in a house at Whompoa and were found to be in possession a large quantity of ammunition.

Sporting Editor's Letter Box

Sporting Editor, THE CHINA PRESS

Sir.—Losing a game and being a good loser are the chief essentials of good sportsmanship but after reading The Chatterer's description in today's Sunday Times of yesterday's match for the "Skottowe Cup," it gives me the impression that he left the field 'crying' over the misfortune of the team he supports.

He commences his description with an adage which says that "it is better to be born lucky than rich," hinting that our victory was luck and the two goals scored by the School was simply and purely luck and luck alone—"the Club team was off color, the wind was this and then that, and then the ball was suddenly found in the net"; why not openly praise the losing team and condemn the winning one instead of hinting that the success of the School was a "fluke" and then say "I am not in the least belittling their success" when all along the word "luck" appears where the School has scored or broken up the Club's attacks?

Cumine is known to be a fine footballer so where does the surprise come in when he scored the second goal. Surely "Chatterer" remembers Cumine's fine solo effort when he scored against the S. R. C. a fortnight ago. Maybe that was "Luck" also?

If not for De Man the Club would have been at a great loss for he was the mainstay of the team, yet that does not excuse him for deliberately tripping, and Johanssen is to be admired for controlling his temper from punching him when he richly deserved it; unquestionably De Man's trip is in every sense unmanly and it was "luck" for him that he did not receive his "marching orders."

In short what I have to say, "Chatterer" should not try to rob us of the glory of our victory, but acknowledge the defeat like a sportsman and remember that "the proof of the pudding is in the eating thereof."

Thanking you for publishing this, I am, Yours faithfully,

"A SCHOOL BOY."

SAYS 'BUGS' Baer: GINK WAS GAME TO THE FINISH

When Roughtown Champ Started To Dog It, He Was A Whole Kennel

BY "BUGS" BAER

Dear Friendless:

You got about as much brains as wire whiskers when you claim the championship for your cellar sniffer, Gink Fowler.

My man, Tarzan Larson, outwitted Gink one night in Humboldt Park and forced Gink to chin the canvas. According to the records Tarzan won the endurance record by staying unconscious as a Senator for five days and forty-six minutes.

He was out so long that he spoke a different language when he woke up.

But, nevertheless, Tarzan asked for a return slugging and then knocked Gink past two traffic cops, who fined him ten dollars apiece for violating rules governing knuckle-propelled vehicles.

Disrespectfully yours,

CONNIE,

One of the neighbors' children in Chicago.

We have so many letters accumulating about Gink Fowler, the champion of Roughtown, that we can't print 'em all.

F'r sample: Joe Gallagher, who is sporting editor of the Plainfield Courier-News, writes that his man Samptown Sam knocked a string of freight cars off the track with a short left jab to the engineer's jaw.

Gink never did that, but he knocked a boat out of the river by slamming the pilot on the nose.

We know Joe, and we know that he is as truthful as it is necessary to be in Plainfield.

There is no doubt that Sam was some slogger, but he is not yet ready to meet the Roughtown chance. It would be another case of the lamb in the abattoir.

If Gallagher raises a purse of one million of anything, buttons roughdrops or dill pickles, we will match Gink and Sam, winner take all.

That's fair enough. In all the time that Gink has been doing setting-up exercises on the championship can vas, he never asked for the worst of it.

Gink thinks that every man should have his rights and he is willing to give 'em to him. Personally, we think that Sam should go back into the barrel for a little more experience, but if he wants to fight Gink then no power on earth shall tear it down.

Walter Kelly is willing to back Gink against any shadow boxer in the world. Billy Wellman says we needn't worry about the arena because his dog died last week and he has an empty doghouse all ready for the battle of the ages.

Therefore, there is nothing to stop Gink and Samptown Sam from pasting each other all over the vacant fences in America.

Therefore, let us get these two champs together in the doped arena.

FREEDOM OF SPEECH AND THE MUNICIPAL COUNCIL

We beg to direct attention to Resolution IV on the Agenda of the Special Meeting of Ratepayers convened for April 19th, 1922.

NEW CRIMINAL OFFENCES

The Resolution seeks to introduee a bye-law, creating an entirely New Series of Criminal Offences for which the Maximum Penalties are either a fine of Three Hundred Dollars or a term of Imprisonment extending to three months.

TEXT OF "PRINTED-MATTER" BYE-LAW

RESOLUTION IV — That the following Bye-law be pas:ed, approved and numbered XXXVA:—

PRINTED MATTER:—Any person who shall print (which term shall for the purposes of this bye-law include any mechanical mode of reproduction) or publish, or cause to be printed or published, any newspaper, pamphlet, circular, handbill, leaflet, placard or other paper containing public news intelligence of occurrences or any remarks or observations thereon, and shall not prior to such printing or publishing have registered or caused to be registered, in the case of foreigners with the Consul of the nationality to which such person belongs and otherwise with the Municipal Council, his name and usual places of abode and business or shall knowingly have made or caused to be made any misrepresentation or omission whereby such registration shall be misleading; and any person who shall print any paper whatsoever which shall be meant to be published or dispersed who shall not print upon the front of every such paper, if the same shall be printed upon one side only, or upon the first or last or editorial leaf of every paper which shall consist of more than one leaf, in legible characters, his name and usual places of abode and business; and any person who shall publish or disperse, or assist in publishing or dispersing, any such paper on which the name and usual places of abode and business of the person printing the same shall not be printed as aforesaid, shall be liable to a fine not exceeding three hundred dollars or to IMPRISONMENT NOT EXCEEDING THREE MONTHS or to any such other penalty as shall be prescribed by the law to which such person is amenable."

BYE-LAW IS ULTRA VIRES

We are advised that the proposed bye-law is *ultra vires* of the "power, authority and control" vested in the Municipal Council as defined in the Shanghai Land Regulations. While the Council is competent to ceal in terms of a bye-law with any matter within the scope of the Regulations, it is legally incompetent to deal, in the sense of a bye-law, with any matter lying outside the ambit of the Regulations. The fundamental right of freedom of speech—which is guaranteed to Chinese by the Provisional Constitution—is not covered by the Regulations; and it is this right that the proposed by-law is seeking to limit.

BYE-LAW IS UNPRECEDENTED

We are also advised that the proposed measure is, *as a whole*, without parallel in modern times. For instance, there has never been anything like it in England except in the modified form against which a great Englishman thundered in 1644 and which was finally abolished as long ago as 1695. The present law of England permits any one to say, write, and publish what he pleases subject to the general law of defamation and to two statutory provisions, one requiring every paper or book intended to be published or dispersed to bear on it the name and address of the printer and the other establishing a register of *newspaper proprietors* at Somerset House, London.

SEVEN NEW OFFENCES

But the proposed bye-law goes far beyond these two specific restrictions imposed by British statutory law. It creates seven new offences, grouped as follows:—

A. Any person, not having first registered his name and address with the Municipal Council (a foreigner must also register with his Consul), shall be liable to be fined or imprisoned as aforesaid, if he (1) print, or (2) publish, or (3) caused to be printed, or (4) cause to be published "any newspaper pamphlet circular handbill leaflet placard or other paper containing public news intelligence or occurrences or any remarks or observations thereon."

B. The same penalties are incurred by any person who shall (5) "print any paper whatsoever which shall be meant to be published or dispersed" without also printing thereon his name and address.

C. Any person shall be similarly punished who shall (6) publish or disperse, or (7) assist in publishing or dispersing any such paper on which the name and usual places of abode and business of the person printing the same shall not be printed as aforesaid."

MEANING OF PRINTED MATTER

THE PROPOSED BYE-LAW DEFINES THE TERM "PRINT" TO INCLUDE "ANY MECHANICAL MODE OF REPRODUCTION," e.g., COPIES MADE BY AN ORDINARY DUPLICATING MACHINE OR CARBON COPIES MADE ON AN ORDINARY TYPEWRITER ARE PRINTED MATTER WITHIN THE MEANING OF THE BYE-LAW.

CURIOUS BUT EXTRAORDINARY RESULTS

We are further advised that certain curious but extraordinary results follow from this special definition of printed matter. There is just space to mention one or two of the more singular instances. For example, a Bank, which issues daily a printed or mimeographed list of Exchange rates or other general financial information, must register in terms of the bye-law. The same is true of a sharebroker who circulates a similarly printed list of Stock Exchange quotations, or of a news agency like Reuters, or of a writer who syndicates his articles in other than **handwritten** "copy". And owing to the ambiguity and lack of precision in the language used, it is a question whether such a Bank, for instance, would not be required to register afresh "prior" to the issue of every list of Exchange rates. The Council, presumably, does not intend such an operation. But the bye-law, as worded, does not reasonably exclude such a reading of its meaning.

PERNOTTE NOW CENTRAL FIGURE IN BANQUE AIRING

Misuse Of Bond Issue Charged Against Ex-Director

(Reuter's Service)

London, March 26.—Paris advices state that the examining magistrate is inquiring into another charge of fraud and abuse of confidence against Mr. Pernotte, former Director of the Banque Industrielle de Chine.

According to the facts now published, the Banque issued 25,000 bonds at 500 francs in the name of the Societe Commerciale Maritime du Pacifique in December, 1919. The proceeds from these had to be guaranteed to bondholders by the purchase of vessels and mortgages on commercial buildings. It is alleged that this sum was actually included in the circulation funds of the Banque, which paid five percent interest to the Societe.

It appears that 7,000,000 francs were actually expended on boats but the allegation is that the investors' money was not guaranteed as it should have been. It is further alleged that the Banque employed these funds for various purposes.

M. Pernotte replied to these charges that the whole 12,000,000 francs passed into the hands of the liquidators of the Banque.

Red Cross Appeals For Funds For 834 Homeless In Chapei

The Chinese Red Cross Society is making an appeal to the public for the relief of the 834 paupers made homeless by the great fire which destroyed 177 houses at Hu Chia Bridge, Chapei, on March 21 and 22. Most of the victims are ricsha coolies and mill hands and are now sleeping in the open after the destruction of their mud huts. Contributions will be received at the Central Office, 26 Kiukiang Road.

FLOOD IN VENICE

(China Press Service)

London, March 26.—A dispatch from Venice states that a tidal wave has hit the city and the streets are three feet deep in water.

Heavy Gale In Western Japan

(Reuter's Pacific Service)

Tokio, March 21.—A serious gale swept over Western Japan early this morning. Local despatches from Osaka and Moji report damages to dwelling houses and farms.

Tokio, March 21.—Owing to the storm of last night and this morning, overland telegraph communications are interrupted, messages between Kyushu and Tokio are delayed and the cables arriving over the Eastern Service are held up.

It is hoped to have the wires repaired in a short time and the partial interruption of the services remedied.

Parliament Must Pick Vice-President, Is Stand Of Canton

A statement branding as false the alleged terms of a reported pact between the Canton government and Chang Tso-lin which appeared in a vernacular paper was issued yesterday by Mr. Eugene Chen, representative of the Canton government in Shanghai.

"While Canton insists on the recognition of President Sun Yat-sen as the constitutional ruler of the Chinese Republic, the question of the Vice-Presidency must necessarily be left to the Chinese Parliament which is alone competent, under the Constitution, to decide who shall be vice-president," reads the statement.

As regards the reported intention of President Sun to go abroad after the unification of the country, Mr. Chen believes that President Sun will have more important work to attend to in China than paying ceremonial calls in foreign heads of state.

AMERICANS AT TIENTSIN OBJECT TO TROOP RECALL

Chamber Soliciting Support For Appeal To Congress

(China Press Correspondence)

Tientsin, March 24.—The American Chamber of Commerce of Tientsin has appointed a committee to draft a resolution of protest to Congress against the withdrawal of American troops in China. The committee also will seek the co-operation of other American Chambers of Commerce and American organisations and firms in the protest.

Mr. Robert Hall Maclay of Tientsin addressed a communication to the chamber on the subject asserting that the present was a very inappropriate time for such withdrawal as this is an intercalary year (two fifth moons) and has always been a year of ill-augury among the superstitious Chinese. He asserts that in each intercalary year there has been some kind of an outbreak by the hoodlum class and that this year, with the Chinese government but a myth, the time is too tense to think of withdrawing foreign troops.

The Chamber of Commerce at the same time passed a resolution protesting against the failure of the United States Court in China to sit in Tientsin, as required by law, and to provide for attention to ordering legal business pending in China.

Senator Urges Shipping Subsidy

(China Press Service)

Washington, March 25.—Senator Randall, speaking before the Senate today declared that the only way for the United States to achieve naval equality with Great Britain lay in the increase of the merchant marine. He urged a subsidy to encourage the building of vessels of 10,000 tons and over having a speed of at least 20 knots.

These vessels would be used for auxiliaries in case of war and are absolutely necessary for without them the Navy would be practically powerless. America, he said, has only 44 merchantmen of 10,000 tons or more as against 1,460 of Britain.

Constantinople And Eastern Thrace To Remain Turkish

(Reuter's Service)

Paris, March 27.—The official communique issued states that the Near Eastern Conference has decided that Constantinople and a large part of Eastern Thrace will be left under the Sultan's sovereignty and that territories bordering on the Straits will be demilitarised whether assigned to Turkey or Greece. An international commission will supervise the Straits. It has also been decided that Turkey's indemnity will be fixed but no financial control will be established. The capitulation regime will be provisionally restored without, however, compromising the rights of foreigners in Turkey.

The Turkish sovereignty of Anatolia will be assured from the Mediterranean to the Black Sea and from the frontiers of Transcaucasia and Persia to the Aegean Sea. All the foregoing decisions depend on the peaceful evacuation of Asia Minor for which the armistice proposal was made.

Obata And Aides Discuss Plans For Troop Withdrawal

(Reuter's Pacific Service)

Peking, March 24.—The visit of Mr. Obata and his colleagues to the Waichiaopu yesterday was for the formal introduction of the two Delegations. No business was transacted but at today's meeting the question of the procedure of the withdrawal of the Japanese railway guards in Shantung was discussed. When this matter has been settled the delegations will take up the question of the withdrawal of the Japanese troops from Tsingtau. It is expected that the discussions will take upwards of a week.

President To See Dr. Mott April 7

(Reuter's Pacific Service)

Peking, March 24.—President Hsu Shih-chang will receive Dr. Mott and the other representatives of the World Christian Student Federation at 3 p.m. on April 7. Dr. Yen will receive the visitors on a date yet to be fixed.

The Waichiaopu is giving a reception this evening to four hundred people, mainly Chinese, in honor of Dr. Wang Chung-hui.

Retrocession Plan Under Consideration

(Reuter's Pacific Service)

Peking, March 24.—Mr. Chen Lu, Chinese Minister in Paris, has telegraphed to the Government saying that as Britain is not going to give up Kowloon or Japan Tailenwan the French Government is considering the question of the surrender of Kwangchowwan to China.

Brazilian Minister To Visit In Japan

(Reuter's Pacific Service)

Peking, March 24.—The Waichiaopu has been notified that Mr. d'Araujo, Brazilian Minister, will leave here on April 15 for Japan, where he will remain for a month.

ENVOY RECALLED

(Reuter's Pacific Service)

Peking, March 24.—By an order of the Waichiaopu Dr. N. T. Z. Tyau is transferred to the Waichiaopu. Dr. Tyau (brother of Dr. Phillip Tyau, Minister to Cuba) was attached to the Washington Delegation as a Legal Expert.

RUSS PRISONERS

(Reuter's Pacific Service)

Peking, March 24.—It is reported that the Russian prisoners at Manchuli will start for Peking on April 1.

AMERICANS AT TIENTSIN OBJECT TO TROOP RECALL

Chamber Soliciting Support For Appeal To Congress

(China Press Correspondence)

Tientsin, March 24.—The American Chamber of Commerce of Tientsin has appointed a committee to draft a resolution of protest to Congress against the withdrawal of American troops in China. The committee also will seek the cooperation of other American Chambers of Commerce and American organisations and firms in the protest.

Mr. Robert Hall Maclay of Tientsin addressed a communication to the chamber on the subject asserting that the present was a very inappropriate time for such withdrawal as this is an intercalary year (two fifth moons) and has always been a year of illaugury among the superstitious Chinese. He asserts that in each intercalary year there has been some kind of an outbreak by the hoodlum class and that this year, with the Chinese government but a myth, the time is too tense to think of withdrawing foreign troops.

The Chamber of Commerce at the same time passed a resolution protesting against the failure of the United States Court in China to sit in Tientsin, as required by law, and to provide for attention to ordering legal business pending in China.

Senator Urges Shipping Subsidy

(China Press Service)

Washington, March 25.—Senator Randall, speaking before the Senate today declared that the only way for the United States to achieve naval equality with Great Britain lay in the increase of the merchant marine. He urged a subsidy to encourage the building of vessels of 10,000 tons and over having a speed of at least 20 knots.

These vessels would be used for auxiliaries in case of war and are absolutely necessary for without them the Navy would be practically powerless. America, he said, has only 44 merchantmen of 10,000 tons or more as against 1,460 of Britain.

Constantinople And Eastern Thrace To Remain Turkish

(Reuter's Service)

Paris, March 27.—The official communique issued states that the Near Eastern Conference has decided that Constantinople and a large part of Eastern Thrace will be left under the Sultan's sovereignty and that territories bordering on the Straits will be demilitarised whether assigned to Turkey or Greece. An international commission will supervise the Straits. It has also been decided that Turkey's indemnity will be fixed but no financial control will be established. The capitulation regime will be provisionally restored without, however, compromising the rights of foreigners in Turkey.

The Turkish sovereignty of Anatolia will be assured from the Mediterranean to the Black Sea and from the frontiers of Transcaucasia and Persia to the Aegean Sea. All the foregoing decisions depend on the peaceful evacuation of Asia Minor for which the armistice proposal was made.

APARTMENTS TO LET

SPEAKIN' bout Apartments. Remember those "twobyfour" packincases, back home with hot and cold steam (principally cold steam and hot air) where the rent made your "firstanfifthteenth" look like it was moth-eaten; and the superintendent who usually looked like he was out under suspended sentence; the janitor who stole your milk and rolls off the dumbwaiter; the "lady" who used to do the cleanin' for the woman who had the apartment.....Contrast all this with the luxury of service, cleanliness, comfort, good food at Number EIGHTEEN, and I'M askin' you where you get that "those were the happy-days stuff" I have a little two-room apartment with private bath vacant and you can looksee the cleanliness, and if you're figurin' on comin' to live here, have a meal on the house, before you decide, and I'll take chances on your comin' ELMONT 18 QUINSAN GARDENS.

Aero Passengers Die In Agony After Three Terrible Days

(Reuter's Service)

Miami, Florida, March 25.—The first news of the terrible experiences of five passengers who lost their lives in a seaplane disaster while going to Bimini is given by the pilot Robert Moore, the sole survivor, who was rescued last night in a delirious state, after clinging three days and nights to the wrecked machine.

Mr. Moore related how the seaplane was disabled and was forced to descend to the open sea. Two women died from exposure; two other passengers, rendered crazy through thirst, jumped into the sea, while the fifth, exhausted by the buffeting of the plane, released his hold and was drowned.

Dutch Left Free To Determine Own Armament Policy

(Reuter's Service)

The Hague, March 25.—In the course of an article in the White Book with reference to the Washington Conference Jonkheer Dr. H. A. van Karnebeek says that the attitude of the Dutch Delegation left the Duch Government entirely free to determine its policy as regards the defense of the Motherland and colonies.

Webster, American Banker, Coming Here

(Chung Mei Service)

Peking, March 26.—Mr. Edwin Webster and party and Mr. George Mugfeld left Peking for Hankow where they will take the river trip to Shanghai.

Mr. Webster has been continuously entertained in Peking and leaves with many pleasant recollections. On Monday he was the guest of Dr. W. W. Yen at luncheon, on Tuesday Sir Francis Aglen gave a dinner for him, and yesterday Ex-Premier Hsiung Shih-ling gave a reception at his estate in the Western Hills.

The United College Association, the Technology Club and the University Club, all of Shanghai, have already wired to Peking requesting that he be a guest at different dinners.

Child Slaves' Friends Thank All Who Helped

(Reuter's Pacific Service)

Hongkong, March 26.—About 700 persons, including a representative of the President of the Supreme Court of Canton, attended the first general meeting of the Anti-Muitsai Society at which a resolution was passed to telegraph the thanks of the Society to Lieutenant-Commander and Mrs. Haselwood and all sympathisers including the British Press for their efforts in behalf of the muitsais of Hongkong.

A Canton official expressed the opinion that since the Hongkong Government was falling in line with Canton in issuing a proclamation for the abolition of muitsais, their object would more easily be accomplished.

It was agreed that the Anti-Muitsai Society and the Society for the Prevention of Cruelty to Muitsais should combine and formulate a scheme to be presented to the Hongkong Government for the abolition of the muitsai system.

No U. S. Loan For Canton, Legation Says

(Chung Mei Service)

Peking, March 25.—Some time ago the Cabinet communicated to the Foreign Office information which it had received to the effect that a loan had been contracted with an American capitalist by the Government of Dr. Sun Yat-sen, requesting that the Foreign Office enter a protest with the American Department of State for its supposed sanctioning of such a project.

The Ministry of Foreign affairs is reported to have taken the matter up with the American Government and to have received the reply which it has just sent to the Cabinet that the report of the loan on the part of an American capitalist was false.

The loan agreement had not been carried out and the report of the Chinese Ministry of Foreign Affairs that loans had been forwarded to Dr. Sun Yat-sen was denied at Washington.

Exchange Fluctuations

Asia Banking Corporation

March 27, 1922

Spot and forward bar silver were each down ¼d. in London on Saturday.

The New York price declined to 64¾ cents, and the London-New York cross rate to 438½.

The only changes in the official quotations here today were a rise in the Yen rate to 68 and in the Franc rate to 750.

Our market here opened uncertain but became steady as the day advanced.

In the early morning some business in Sterling was done at 3-3½ for March and 3-3⅝ for April.

However, later in the day there were sellers of Sterling at 3-3⅝ for March. 3-3½ for April and 3-3⅝ for May-June.

There were sellers of Gold Dollars at the same time at 72½ for March. 72¼ for April and 72⅛ for May-June.

There was again very little business doing today.

India sold a small amount of silver in London on Saturday and both the London and New York markets are reported as being steady.

Kroewoek Java Plantations

The twelfth annual general meeting of shareholders in the Kroewoek Java Plantations, Ltd. was held yesterday afternoon at 4 o'clock at the offices of the secretaries and general managers, Messrs. J. A. Wattie and Company, 10 Canton Road.

The chairman, Mr. A. J. Welch, in his annual address, said:

"Gentlemen: Before proceeding with the formal business of this meeting, I wish to express on behalf of the Board our sorrow at the great loss we have sustained in the death of Mr. W. S. Jackson who died on the 7th of May last year. Mr. Jackson had served the Company as a director since 1913 and we who are left miss the benefit of his counsel and experienced advice.

"The report and accounts having been in your hands for the prescribed period, I will, with your permission, take them as read.

"The year we have just passed through has proved to be the most depressing and anxious period the rubber plantation industry has ever experienced, but despite this I am glad to state this Company has successfully weathered all difficulties and I feel there is much cause for congratulation that we can place before you today accounts that show a result on the right side.

"This, gentlemen, has not been easily achieved; it has only been attained by the most careful supervision and rigid economy and our best thanks are due to the manager and his staff and to the Sourabaya agents, without whose untiring efforts we would not have been able to show so satisfactory a result.

OUTLOOK NOT TOO BRIGHT

"The outlook at the moment for the rubber market does not seem particularly bright but this state of affairs cannot continue for ever. I feel confident that this Company, at any rate, will be able to hold its own till brighter times come.

"Touching on estate matters, reports indicate that despite the enforcement of economies in all directions, the property has suffered no harm and is in first class condition in every respect.

"The coffee harvest was below the estimate due mainly to the depredations of a new pest called the coffee berry borer, to combat which no effective means have so far been discovered. The coffee interplanted amongst rubber is rapidly deteriorating owing to the heavy shade and some 379 acres may shortly have to be cut out. The crop last year was not a financial success, but I hope better results may accrue from this year's crop which is estimated at 600 piculs provided the pest can be kept in hand.

"The output of rubber, which amounted to 493,730 lbs. was restricted owing to the condition of the market, otherwise we could have produced 650,000 lbs. This policy of restriction will be continued until conditions return to nearer normal. Our cost of production, despite the smaller harvest, works out 1½d. cheaper than in 1920, while this year unless something happens to upset our calculations, we hope to still further reduce this already cheap cost.

"The system of tapping now in vogue is alternate day which system is very favorably spoken of. Bark consumption has been considerably reduced and diseases are reported at a minimum.

"Labor conditions were not too easy, but the estate had sufficient to carry out all works, and the health of the force though not of the best, gave no special cause for anxiety. Wages on the average were the same as those paid in 1920.

DUTCH COMPANY PROFIT

"Turning now to the accounts, you will see that the profit of the Dutch company as shown in the working account is F.43,671.89 compared with F.83,404.07 the previous year, but when you consider the extremely low prices prevailing during 1921, I am of opinion there is every reason for satisfaction that there should be any profit at all. In arriving at this result I may mention that rubber stocks at the end of the year were taken into the accounts at F.0.37 or at parity of exchange 7.40 pence per lb.

"Reference to the Dutch Company's balance sheet will show you that capital expenditure during the year was negligible.

"The accounts of the Shanghai Company present no occasion for special comment.

"The liquid assets of the two companies combined show a surplus over cash liabilities of Taels 78,721.76 after providing for all known liabilities and reserves for taxation.

"Although the financial position of the company is thus very comfortable, I do not think you will be disappointed that your directors have not recommended a dividend. I am sure you will agree with them that in view of the uncertain outlook the only policy at present is to keep the company well equipped to successfully face and overcome difficulties as they arise. After the experience of last year, I will go further than this and say that an estate of the size of Kroewoek should always keep a considerable sum in hand for use as working capital and as a standby in case of emergency.

"That concludes my remarks, gentlemen, but, before formally proposing the adoption of the report and accounts, I shall be pleased to answer any questions you may wish to ask."

The following resolutions were then passed:

No. 1: That the directors' report and statement of accounts as presented be passed.

No. 2: That Mr. H. M. Tibbey be re-elected a director of the company.

No. 3: That the appointment of Mr. W. W. Cox as a director of the company be confirmed.

No. 4: That Messrs. Lowe, Bingham and Matthews be re-elected Auditors to the Company for the ensuing year.

A Revolt Against "Squeeze"

BY JOSEF W. HALL

WITH the arrival of telegrams pledging support from national, provincial and local Chambers of Commerce, promises of backing—by demonstration if necessary—from student bodies, and a letter of commendation from the long-silent Kang Yu-wei, China's living sage, Justice Minister Tung Kang's abrupt attack upon the corruption prevailing in the Ministry of Finance takes the aspect of a popular revolt against what the Peking Express, student daily, calls the "Tradition of Mandarin Squeeze." Public opinion, it seems, was ripening for such a revolt, but was at a loss to express itself, when, to the surprise of public and officialdom alike, a champion arose from among the office-holders of Peking itself, and espoused the ignored principle of integrity in administration of public funds.

This principle, at least as far back as Chinese annals go—which is quite a way—has never been an active one in Chinese official life. In general, however, a conception of moderation has prevailed, and mandarins, like houseboys, have understood how far to go and where to stop. But there appear to recur eras as when this check fails to operate, and a Confucius or a Tung Kang is required to bring officials back to reason. The era since the revolution has seen an increase, in cumulative fashion, of peculation; on the part (as old residents will testify) of officials and houseboys alike. It is the spirit of the age. Various factors have contributed to this state of affairs, chief of which is the removal of the restraint of paternalism under which it is allowed to loot only on condition that the "pater" chiefly benefits.

When an acting minister of finance can clear fifty thousand dollars a day out of his job while his department cannot meet its foreign obligations, redeem its domestic bond issue or pay its petty servants; when the government nets forty cents on the dollar out of its borrowings; and when the bonds of a fourteen-million-dollar issue are printed three times, the thing is obviously going too far. Then, of course, there are outside factors tending to check it, such as the jealousy of aspirants who for the time being are unable to get a finger into the pie, and the influence upon the patriotically minded of the popular indignation against official fortune-making in near-by Japan.

General Wu Pei-fu has compared the work undertaken by Justice Minister Tung Kang to that of Confucius in forcing to the executioner's block one of the most notorious official robbers of his time. Dr. Tung is rather embarrassed by the doughty general's compliment. The men whom he is endeavoring to prosecute happen to belong to the ranks of Wu's factional enemies, and he has no desire to appear as an instrument of political revenge.

In regard to the commendation of Kang Yu-wei, who, to the Chinese people, is a sort of combined Bernard Shaw and Anatole France he is much less shy. He states that it is the only testimonial to his motives thus far received in which he was free to express gratification.

Kang Yu-wei, who was outlawed by the Empress Dowager for advocating limited monarchy, by Yuan Shih-k'ai for opposing his monarchical scheme, and by later republican chieftains for recommending the restoration of the Manchu Dynasty, now resides with his large family on Yu Yuen Road, in Shanghai. He boasts that through the influence of his teaching even his wives and concubines have lived in undisturbed peace. He is now something more than sixty years of age. He has a large following. Some of his disciples go so far as to call him the "Second Confucius," and he is popularly known as the "living sage." He is a prophet with honor in his own country, for the people of his native district near Nanchang, Kiangsi, have erected a temple to him in which he is worshipped as a god. Much of Kang's standing is due to his literary style. In China, perhaps even more than anywhere else in the world, it does not matter so much what one says as how he says it.

We cannot reproduce Mr. Kang's style in this translation, but he hits out boldly enough. Addressing Minister of Justice Tung, he says: "Your action is the first thing worthy of record which has transpired in ten years. The wealth of the people and nation has been seized by respectable bandits. Presumptious men have placed no rein on their avarice in dealing with public funds. Embezzlement has become an established precedent. Financial and banking circles have a close connection with official corruption. With our national funds stolen it is no surprise that we are bankrupt.

"Government departments and staffs are starving because of non-receipt of salaries while high authorities become millionaires. Virtue is gone and law is applied only to the people and not to their rulers. No government can be established while such conditions prevail. If they continue our country must perish.

"Your undertaking is a thunderclap which has startled the nation. I trust you will continue uninfluenced by your own discomfort, the wishes of your superiors, or the threats of those who fear you. May you go down in history along with the worthies of old, whose repute is as the sun and moon!"

Man's Flying Merely A Climax To Eons Of Wing Growth By Creatures Originally Wingless But Forced To Fly, Says Science

BY DR. W. H. BALLOU,
Well Known Writer on Scientific Subjects

The matter of how flight "originated" continues to be a hot question of debate among men of different branches of science, who naturally view the same thing from different viewpoints. If a bird or a flying reptile or a bat had suddenly appeared on earth endowed with wings there would be no question of the "origin" of flight.

Naturally, an animal, finding itself vested with wings and having no other particular way of moving about, would flap these organs, find himself moving upward and forward, and therefore fly about, looking at the scenery. But the cold fact remains that no insect, flying reptile, flying bird or flying mammal, suddenly appeared on earth, found itself endowed with wings and thereupon took to flight.

All of these creatures acquired wings through long ages of a chain of ancestors, each of which gradually took on functions looking toward ultimate flight. The process required several million years.

First, there was the original winged insect, the Paleodictyoptenon, existent from the lower to the upper Carboniferous or coal-forming period, an ancestral dragon fly, the progenitors of which trilobites had inhabited water for ages.

THE FIRST WINGED THING

Its larvae, after development four years each from the egg in water, where they had pursued prey by a form of swimming equivalent to flight, crawled out and dried themselves on the trunks of trees.

Having no desire to return to water, they tried out their primitive wings in the air, and first flight on this mundane sphere was accomplished. They have, however, during nine million years, made but little advance in structure. That beautiful dragon fly you see in Summer, darting here and there in pursuit of invisible animalcules, to this day, must lay its eggs in water, just as its far-off ancestors did, where its larvae must remain for four years.

Similarly we know that it took ages for the ancestors of flying reptiles and bats to develop the patagium, or umbrella frame, out of the fingers of the fore limbs, on which to spread a membrane for wings. As to birds, we know by the structure of their brain cases that their ancestors were reptiles, which, probably like the ancestors of insects, specialised in a form of swimming under water equivalent to flight, until near wings were formed.

FROM SCALES TO FEATHERS

The first fossil bird of which we have knowledge was Archaeopteryx, and it is assumed that it had quill feathers between the legs and the body, which with wings and tail, enabled it to sail through the air. We further assume that the scales of the reptile changed into feathers by friction with air in such sailing flights, that is, the scales gradually split up or divided and became fuzzy.

The great questions that divide men of science into opposing schools hinge on whether flight originated by these creatures springing from the ground upward, or from the top of cliff or tree downward. A layman perhaps would adjudicate that if insect, bat, reptile or bird found it had wings, it would just naturally utilise them for flight and by practise make perfect.

But no, not too fast! Watch the parent robin push its young off the limbs of the tree until the offspring learns the utility of its wings! See the mother bat load herself with her young and remain in air with them for several days, until one after another drops off and finds that it must fly or break its neck! Many species of large birds, particularly those which nest on lofty rock ledges, similarly load their backs with their young, and somewhere out in space, rock the cradle until over goes the load of babies.

FORCED TO FLY

Both the mother bat and the mother bird know that the infant in each case will frantically flap its wings as it drops, attaining some poise in the air, at least enough to prevent its being hurt by the fall.

Dr. Robert Broom, the South African paleontologist, says:

"The question is really whether the bird ancestor was a hopping bipedal animal before it flew, or if it only hopped after the wing had become specialised. I am strongly of the opinion that it was a hopping animal first, and that the metatarsus became strengthened to support the weight of the body entirely borne by the hind feet. It is easy to understand a hopping animal taking to aboreal life and ultimately developing a wind out of a four-toed hand, while it seems unlikely that the hind foot could ever have developed by aboreal habit.

"It is interesting to note that while the ancestor of the pterodactyl had four toes in the manus (hand) there is very clear evidence from the skeletogenesis of the bird that the latter also had a four-toed ancestor. A Pseudosuchian, Euparkeria capensis, a small reptile found fossilised in the Upper Triassic beds of South Africa, which through a bipedal habit had developed a strengthened angle-joint and a firm metatarsus, and had lost the fifth digit from its manus, would meet all of the requirements of the origin of flight of an avian ancestor."

SCIENTIFIC DIFFERENCES

In regard to this statement, the late Dr. S. W. Williston wrote me:

"All reptiles until Triassic times had thecodont teeth, or teeth lodged in the sockets; and only one genus in the Triassic is known to be acrodont, or having teeth surmounting ridges of the jaw. This genus is Broom's Palaeorodon. So you see that Euparkeria in that respect had no special claims to avian ancestry.

"The early pterodactyls had thecodont teeth; the later ones lost them and developed a horny or hard covering for their long jaws. The feet of birds and pterodactyls resemble those of dinosaurs, with structure due to digitigradism, not necessarily to running habits.

"Surely, no one will suggest that pterodactyls were running reptiles! Flight was first attained upward, not downward, in rising from the ground, not in descending, though very likely it was first acquired in light limbed, perhaps hollow-boned, more or less climbing reptiles."

Pycraft insists that first birds lived in trees and first acquired flight by leaping from limb to limb, from tree to tree. Baron Nopcsa couldn't see it that way. He declared that birds originated from bipedal long-tailed cursorial reptiles, which, while running, oared along in the air by flapping their free forward extremities.

Abel assumes that birds and carnivorous dinosaurs arose from a common arboreal, ancestral group with climbing feet. The dinosaurs soon descended from trees and thereafter lived on the ground. The birds stuck to the treetops until they had acquired full powers of flight.

WHY CAN'T OSTRICH FLY

Beebe, of the New York Zoological Parks is convinced that birds learned flight through volplaning downward from tree tops after the manner of flying squirrels. He does not say why flying squirrels also did not learn to fly. Dr. W. K. Gregory of the American Museum of Natural History conceives that flight essentially followed a clothing of feathers, over the entire surface of the body and along the arms and legs. He says:

"I cannot avoid the impression that a vigorous downward flap of the arms, even before they became efficient wings would assist in the 'take-off' for the leap, and that another flap just before landing would check the speed and assist in lighting."

Why cannot the Ostrich fly? Why did he specialise his wings to assist him in running faster than the fastest horse? Here we have a substantial answer. This so-called bird and his ancestors never specialised to become a full bird in other respects. The ostrich has a structure of skeleton that almost places him among the mammals.

To say the least, he is as much a mammal as a bird. Luckily for women, however, he is bird enough to produce ample plumes for their decoration.

So, the fact is, flight did not "originate" at all. It was brought about by a long series of inventive processes, by creatures who determined to get in the air away from their enemies, to seek out food and to enlarge their scope of living.

The process of mastering the secret of flying has been duplicated by aviators, and along precisely the same lines as those followed by reptiles and would-be birds and insects. The process of perfecting flight is just as acute today in the bird world of among progressive aviators. In fact, aviators have not yet caught up with sea birds in this mastery, who know more about flying, soaring and standing still bined.

TEETHING WITHOUT TEARS
A NEW LIGHT ON BABY-REARING

It is a recognized fact that Babies—and in fact all Children—need medicines of their own, and that most baby-medicines do more harm in the long run than good. Also great mistakes are often made in measuring doses for tiny patients. Baby's Own Tablets, the Canadian medicine for Children of all ages, meet every difficulty. They are guaranteed to be absolutely harmless and free from opiates. They are so soft that they fall into powder at very slight pressure, forming an ideal dose for Infants.

Baby's Own Tablets are pleasant to the taste; slightly laxative, comforting and digestive—a specific for feverishness, constipation, diarrhoea and worms. At the time of teething they act like magic, giving painless sleep and easy teething.

Obtainable from chemists, also at 60 cents the vial, post free from the Dr. Williams' Medicine Co., 96 Szechuen Road, Shanghai.

AGE is no indication of eye condition. Many aged people do not need to wear glasses, whereas many children need them at an early age.

Sometimes children, otherwise bright and intelligent, are backward in school on account of defective eyesight which is entirely unsuspected.

Let us test the eyes of your children. Be sure that you know whether or not their eyes are all right.

The Pneumonia Month.

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ ladened mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.

OH! HOW I FEEL-MR JIGGS-I'M A SICK GUY-
WELL-IF YOU DON'T FEEL ANY BETTER THAN YOU LOOK-YOU'RE JUST AS GOOD AS DEAD-
I HAD TWO WEEKS SALARY WITH ME AND I THINK I'VE LOST IT-
DID YOU GO THROUGH ALL OF YOUR POCKETS?
I'VE SEARCHED IN EVERY POCKET EXCEPT MY HIP-POCKET!
FOR GOODNESS SAKE-WHY DON'T YOU LOOK THERE?
BECAUSE IF IT ISN'T IN THAT POCKET-I'LL DROP DEAD-

Neill; Committee, Mrs. Graham Barrow, Miss Beckingsale, Mrs. Billinghurst, Mrs. Cromarty, Mrs. Darroch, Mrs. Dovey, Mrs. O. M. Green, Mrs. Hilton-Johnson, Mrs. MacGillivray, Mrs. Matheson, Mrs. E. H. McMichael, Miss Patterson, Mrs. Peebles, Mrs. Symons, Mrs. Trueman.

Subscriptions for 1922-23 are now due. It would greatly facilitate the work of the officers concerned if all subscriptions for the following year—March 1, 1922 to February 28, 1923—could be paid up without delay, and in any case before April 30. It must be borne in mind that no one is entitled to join Sections until the annual subscription to the Association has been paid.

B. W. A. "AT HOME"

A highly attractive "at home" to all B.W.A. members and their friends is in course of arrangement at the Country Club for Monday, April 3, when Captain E. R. G. R. Evans, C.B., D.S.O., R.N., of Antarctic fame, has very kindly agreed to lecture on the South Pole. Those members who for one cause and another missed Captain Evans' lectures last Spring will greatly welcome this rare opportunity of hearing actually at first hand details of the Scott expedition. The lecture will be illustrated by lantern slides. There will be no charge for admission but a collection will be made with the object of benefiting the funds of the Union Jack Club and the Social Service Board of the B.W.A. Tea will be served at 4:30 p.m. and the lecture begin at 5:15.

GARDENING SECTION

The Gardening section held their annual meeting on March 7 and elected the following officers and committee for the ensuing year: Mrs. R. Ivy, chairman; Mrs Craddock, vice-chairman; Mrs. M. O. Springfield, honorary treasurer; Mrs. W. A. L. Pardoe, honorary secretary; Committee; Mesdames Gull, Nye, Pearce, Ryde and G. H Wright. The section has seven definite fixtures arranged, the next being a lecture on April 7, the place and subject of which will be announced later. As well as these there will be informal gatherings of the section in several of the members' gardens.

TIFFIN TO MISS BELBIN

A farewell tiffin will be given by the Executive Committee and those friends in various sections with which she has been connected to Miss E. A. Belbin on Friday, April 7, at 12:30 p.m. The luncheon—which will be of quite an informal character—will take place at the Union Club, I Hankow Road, and all members desiring to be present are asked to communicate as soon as possible with Mrs. O. M Green at 54 Avenue du Roi Albert (Telephone West 865).

SPORTS SECTION

The annual general meeting of this Section will be held at Headquarters on Thursday, April 6, at 5 p.m. when all members are requested to be present. Business: the election of officers and committee for the ensuing year.

LITERARY SECTION

The next meeting of the Literary Section will be held today at Headquarters at 5:30 p.m. when Mrs. Blix will read a paper on "Rudyard Kipling."

ART SECTION

The "at home" which had been arranged for members of this Section by Mrs. Frost at her house for Thursday last was postponed on account of the funeral of the late Consul-General.

DRAMATIC SECTION

Tickets for the Tea Dansant and Cafe Chantant to be given by the Dramatic Section at the Astor House tomorrow, have been selling "like hot cakes." Following is the very attractive program to be presented on this festive occasion:

1. Exhibition Tango by Mr. and Mrs. Goulden.
2. Scotch Stories by Captain A. S. Campbell.
3. Madame Butterfly (Puccini) by Mrs. P. Isherwood.
4. Monologue Actresses by Mrs. J. Snodgrass (Miss Vera Doria).
5. Songs at the Piano by Mrs. Henry Jory.
6. Stories—Irish and Otherwise by Mrs. H. Y. Irwine.

At the Piano—Mrs. A. S. Campbell.

Members and others who have not already purchased their cards of admission ($2.00) may do so either from Mrs. Cromarty at the B.W.A. or from Mrs. Cochrane, Hon. Secretary to the Dramatic Section, 248 Rue de Simon.

NEEDLEWORK SECTION

The next meeting of this Section takes place on Monday, April 3, when Mrs. Lewis has very kindly promised to continue the lesson in the art of stencilling which so greatly interested members last week. The members of this Section—now numbering 39—have not been long in producing tangible results of their labor and it is proposed that a sale of work, extending over May 22, 23 and 24, should be held at Headquarters. This will include household linen, summer clothing and hats. The famous Ningpo straw hats which are so delightful for seaside and garden wear will form part of the stock in trade and Empire Day badges for the 24th are promised as a specialité.

HOSPITALS' AID DEPT.

In order to raise funds for the purchase of materials for this exceedingly deserving effort to benefit mission hospitals, Mrs John Liddell is very kindly giving an "at home" at 142 Bubbling Well Road on Tuesday April 4, when Mrs. Ayscough has promised to give a lecture entitled "Chinese Backgrounds." The public as well as members and their friends are cordially invited. Tickets of admission (to include tea) may be obtained in advance from the Secretary at Headquarters, price $2.00.

"PRICELESS"
is a popular way of describing anything which has proved to be of exceptional value, and may therefore be employed to describe that old and favourite preparation—Beecham's Pills. The ever-increasing army of men and women who have experience of this excellent medicine generally use some such phrase as "priceless" or "Worth a guinea a box" when speaking of Beecham's Pills. This is certainly high praise. But it is well-merited. Beecham's Pills have proved, times out of number, to be a "priceless" preparation in the treatment of digestive ailments. They bring relief; they safeguard the health; they effect remarkable cures. All who suffer in any way from biliousness, sick headache, constipation, impaired appetite, and the resulting loss of energy and want of tone should take
